Geographic Area	Location	N	E	Location Type	Comments	Date of last survey
CORINTHIAN GULF	Paralia Sergoulas	38°23'36.64''	22° 02'29.39''	Abandoned Location	Satellite images of 2015 show 6 cages abandoned. No land facility visible at that time. At the time it was surveyed (2024) there was no trace left on surface or coast. No information on sea bed debris	July 2024
	Agios Nikolaos	38°20'35.06"	22° 09'54.72"	Abandoned Location	Satellite images of 2013 show an operating facility of 12 cages + land infrastructure. At the time surveyed (2024) there was nothing left except 2 ancorages with - each with one buoy - they seem to be used by utility boats of other operational fish farms in the region. Land facility has been removed. Some debris observed on southern end of coast. No information on sea-bed debris.	July 2024
	Agia 1	38°14'35.20"	22°46'10.31"	Abandoned Facility	From satelite imaging of 2003 the facility appears to be operational (58+42cages). By 2007 it appears to be abandoned - cages scattered. In 2012 there were no cages. In 2016 crane-platform was abandoned close to the position of the old cages - apparently it is not related to the old fish farm. Satellite images of 2017 reveal new cages (10). Satellite images of 2023 show no cages - probably withdrawn. At time of survey (2024) there were no cages afloat. Crane-Platform and land facilities are still there abandoned, together with piles of nets, ropes and other debris. No information on sea-bed debris.	July 2024
	Agia 2	38°13'57.61"	22°47'27.19"	Abandoned Facility	Satellite images of 2017 reveal an operational fish farm with 42 cage in place. At the time of survey (2024) the facility was abandoned - 2 cages and 7 buoys still afloat. Land facilities also abandoned. Debris on coastline and sea-bed (shallow waters). Ropes and net fragments next to land facilities.	July 2024
SARONIC GULF	Egon-Churchill	37°50'43.00''	23°02'55.00''	Abandoned Facility	16 square cage facility up until 2007. A small kiosk and some debris ashore. Metal structures, chains etc visible on sea bed (depths ranging from 1 to 8m)	Dec. 2023
	Lychnari 1	37°50'28.00''	23°03'52.00''	Abandoned Facility	16 square cage facility up until 2007. A wrecked kiosk and some debris ashore (on the rocks). Left overs on sea bed. No floating elements. Location is a non-organized public beach but a small floating dock is also used for loading-transporting staff and equipment to neighbouring fish farms	Dec. 2023
	Lychnari 2	37°50'43.88"	23° 03'28.63"	Abandoned Location	17-20 cage facility up until 2007. No visible remains afloat or ashore	Dec. 2023
	Lyxnari 3	37°50'45.76"	23° 3'11.97"	Abandoned Location	8 cage facility with anchorage for 20 cages up until 2007. No visible remains afloat or ashore	Dec. 2023
	Vayia	37°50'42.00"	23° 5'24.00"	Abandoned Facility	An old 36 round cage facility up until 2007. Since 2015 it looked deserted with cages gradually sinking up until 2023. A new facility established over the old sunk facility. Some of the old elements were collected, restored and used by the new owner. Significant debris still found ashore (semi sunken platform, floating tanks with polysterene, cage sections etc. Some nets also found ashore	Dec. 2023
	Babouri	37°50'50.00"	23° 6'21.00"	Abandoned Facility	Old facility well before 2007. An abandoned kiosk and significant debris ashore. Significant litter on sea bed. No floating elements	Dec. 2023
	Peristeri Cave	37°34'16.95"	23°21'29.68"	Abandoned Location	Anchorages of old facility visible up until 2012 (possibly 20+ cages). Land facility can be seen up until 2017. Then removed. Fish farm related debris can be still found ashore. No floating elements	Dec. 2023
	Aghia Mavra	37°33'37.00"	23°21'40.00"	Abandoned Location	A 56 square cage facility up until 2012. Gradually reduced to 18 cages up until 2021. Significant fish farm related debris found ashore. The cove may still be in use for loading-transportation of materials to other locations (possibly by other fish farms). No cages left afloat since 2021 but it is likely there is significant debris on the seabed	Dec. 2023
	Krassopanayia	37°36'40.44"	23°18'30.97"	Abandoned Facility	A 37 cage facility which appears to be non operational over the past 2 years and now we have positive information that it has been abandoned. The cages are still afloat. There is also a land facility with wrecked kiosks and cosiderable debris ashore (including cage parts and pipes)	July 2024
	Steno Methanon	37°33'21.80"	23°22'15.94"	Abandoned Facility	Deserted facility with 13 square cages and 5 round cages. There is a current restoration order for the abandoned sea and land facility	May 2024
	Poros 1	37°31'36.61"	23°26'15.51"	Abandoned Location	A 15 cage facility operated from 2012 until 2018. Probably moved 1 mile eastwards. No facilities remaining afloat or ashore. Fish farm debris found ashore	2021
	Poros 2	37°31'36.83"	23°26'41.72"	Abandoned Location	A 15 cage facility operated from 2012 until 2018. Probably moved 1 mile eastwards. No facilities remaining afloat or ashore. Fish farm debris found ashore	2021
	Patroklos 1	37°39'28.60"	23°56'44.05"	Abandoned Location	A 15 cage facility operated between 2012 and 2017. Presumably moved to the north shore. Abandoned facility ashore	Not surveyed

	Patroklos 2	37°39'34.11"	23°57'12.52"	Abandoned Location	A 15 cage facility operated between 2009 and 2015. Presumably moved half a mile north, near the attica shore. Abandoned facility ashore	Not surveyed
	Patroklos 3	37°39'23.14"	23°56'14.94"	Derelict Equipment	3 cages abandoned afloat 2018-2020. By 2023 only one can be seen afloat	Not surveyed
GULF OF PATRAS	Kato Vassiliki	38°21'04.40"	21°38'57.03"	Abandoned Facility	Cleaned by HEALTHY SEAS, OZON etal in 2024	May 2024
AMVRAKIKOS	GR_0316 (Agios Thomas)	38°57'48.67"	20°47'35.32"	Abandoned Location	Cages and anchorage buoys visible on satellite images until 2019. All cages and buoys withdrawn	June 2023
	Limni Pogonitsa	38°57'28.00"	20°48'13.00"	Abandoned Facility	A sizeable fish farm visible on satellite images until 2013. By 2016 the fish farm is wrecked with runaway semi submergedcages and platforms. At present some of the old elements can be seen ashore, by the 3 ship wrecks.	June 2023
	GR_0339 (Cape Gelada)	38°56'50.00"	20°55'18.00"	Abandoned Facility	The fish farm with its land facilities seem to be deserted. A crane-bearing truck blocks access to the mooring dock and the sea. Fish farm had double the number of present day cages in 2012. Currently the 30 cages left in position are inactive. Visible debris ashore include pallets, ropes, nets (next to a net washing drum), buoys, floaters, plastic pipes, cage parts, metal structures, wooden beams, styrofoam blocks and ring fillings	June 2023
	Menidi 1	39°01'52.00"	21°07'13.00"	Abandoned Facility	Menidi area - Large abandoned sea and land facility	June 2023
	Menidi 2	39°00'20.89"	21°08'23.46"	Abandoned Facility	Menidi area - Abandoned sea and land facility	June 2024
	Menidi 3	39°00'52.00"	21°08'06.00"	Abandoned Facility	Cleaned by HEALTHY SEAS, OZON etal in 2024. Possible debris left on murky seabed	Oct 2024
	Nea Kamarina North 1	38°57'20.00"	20°51'32.00"	Abandoned Facility	Fish farm is abandoned. Inactive cages left in place, some of them wrecked. One of the cages is almost submerged. Satellite pictures reveal that the fish farm was active until 2020	June 2023
	GR_0261 (Nea Kamarina North 2)	38°57'13.00"	20°51'32.00"	Abandoned Facility	Fish farm is abandoned. Inactive cages left in place, some of them appear to maintain their nets. Satellite pictures reveal that the fish farm was active until 2020. A service boat still kept ashore	June 2023
	Neochori 1	38°59'32.52"	20°47'39.83"	Abandoned Location	A 46 cage facility operated until 2009. From that point up until 2014 appears to be abandoned. It appears to be operational again in 2016 (15 cages) but in 2017 the location is abandoned	June 2023
	Neochori 2	39°00'01.64"	20°47'20.48"	Abandoned Location	A 38 cage facility operated until 2012. From that point it was gradually reduced to 17 cages up until 2016. In 2017 the location is abandoned	June 2023
	Neochori 3	39°00'08.29"	20°47'44.82"	Abandoned Location	A 35 cage facility operated until 2012. In 2017 the location is abandoned	June 2023
IONIAN SEA	GR_0322 (Oxia)	38°17'31.59"	21° 6'10.09"	Non Operational Facility	Probably Abandoned Facility. Fish farm consisted of 3 sizeable arrays of cages up until 2012 with each array stretching to 350m - 400m. They gradually reduced to a single array with a few cages only. In 2019 it was still operational. Today only the northernmost array is in place, it is inactive (no nets on cages), no human presence even though the kiosk on shore appears to be habitable	June 2023
	GR_0268 (north of Port of Astakos)	38°28'57.50''	21°04'34.18''	Abandoned Location	Old fish farm has been withdrawn. Three buoys are marking the position. Debris found ashore. Mainly feeding pipes, styrofoam blocks, fragments of wooden pallets.	June 2023
	GR_0030 (Koumaros)	38°27'36.47"	21°05'54.54''	Abandoned Facility	A wrecked facility with elements both afloat and ashore	June 2023
	GR_0078 (Koumaros)	38°27'28.00''	21°06'04.00''	Abandoned Facility	A wrecked facility with elements both afloat and ashore	June 2023
	GR_0321 (Petalas)	38°24'15.00"	21°05'26.00"	Abandoned Facility	Cages and buoys still afloat. A wrecked observation kiosk ashore	June 2023
	GR_0017 (Dioni)	38°22'47.00"	21°05'34.00"	Non Operational Facility	Cages and buoys afloat	June 2023
	GR_0117 (Dioni)	38°22'17.63"	21°05'26.47"	Non Operational Facility	In June 2023 a small number of cages appeared operational. Other cages were non operational. Numerous new anchorage buoys were in place giving the impression of an expanding fish farm. However the 2024 satellite images reveal that many cages have been removed and the remaining few are non operational and scattered. Contrary to original impression no expansion has taken place.	June 2023
	Modi	38°25'43.00"	21°01'38.00"	Abandoned Facility	Old tuna cages still afloat	June 2023
	Provati	38°27'58.01"	21° 3'14.93"	Abandoned Location	Fish farm visible in satellite image until 2006. In 2012 images all cages were withdrawn	June 2023
	GR_0081 (Kalamos)	38°36'25.58"	20°52'35.44"	Abandoned Location	In June 2023 the unit was operational. Facility has now been withdrawn	June 2023
	Varko	38°45'26.32"	20°46'46.39"	Abandoned Location	Fish farm visible in satellite image until 2003. Cages were withdrawn but there is evidence of cage parts, cage nets and cage anchorage chains on the sea bed or washed ashore. Other debris visible ashore.	June 2023

	GR_0253 (Petalas)	38°26'09.00"	21°05'08.00"	Abandoned Facility	In June 2023 it apppeared partially operational. Owner has been imprisoned hence the facility is presumed abandoned. Satellite images of 2024 reveal a non operational fish farm with wrecked facilities and cages. There is also a land facility.	June 2023
