The EU lets farm animals and people eat insects

But they are pricey

[Share](#)

George Wyless

Sep 18th 2021 | 2 min read

FIRST IT WAS pets, then fish. Now it's poultry and pigs. The list of animals allowed to feed on insects is growing. A new EU law authorising the use of insect protein in poultry and pig feed came into force earlier this month, a significant milestone for an industry keen to worm its way into the animal-feed business.
