

Accepted facilities under the Improver Programme

Below is a list of all of the MarinTrust accepted Improver Programme (IP) production facilities.

Important note: MarinTrust only accept new applications and pass them on to an approved Certification Body to conduct an audit of the facility(ies) to the requirements of Version 3 of the Factory Standard. More information about the transition to Version 3 can be found via this [link](#).

A facility **MUST** be listed below to make a claim as part of the Improver Programme, as well as being a stakeholder in a listed MarinTrust accepted FIP [here](#). At least one production facility **MUST** pass a MarinTrust audit within **12 months** of the sourcing FIP being accepted onto the programme, otherwise the FIP may be removed from the programme.

Facilities on this list may not use the MarinTrust logo, but may sell products as MarinTrust Improver Programme material. MarinTrust may provide a letter of acceptance to the programme as proof if required, although the list below should be deemed acceptable. Please review the [MarinTrust Improver Programme Accepted Sites Claims Agreement](#) for more details on this.

All IP facilities must comply with a regular audit cycle and arrange

Jump to country

Denmark	Ecuador
Faroe Islands	Iceland
India	Ireland
Mauritania	Norway
Thailand	United Kingdom

All facilities must comply with a regular audit cycle, and arrange audits at least 60 days in advance. The MarinTrust audit frequency is:

Vietnam

- Initial factory audit in year 1
- Annual surveillance audits in years 2 and 3

NB: The list below is regularly updated. If an establishment claiming to be on the Improver Programme does not appear on the list, then it may not have been accepted, or have had its acceptance [suspended or withdrawn](#).
