Pros: They started buying new vessels, so work and rest are more comfortable

Cons: *** attitude at all levels of the management hierarchy

Comment: Only in my experience the company "SCAMS" on the balance bonus for the 2nd time!!!! under various pretexts.. The company's management is not afraid of anything and boldly violates all the norms of Labor legislation.. It seemed that on the new vessels, which were opened with pomp and ceremony with the participation of television, there would certainly be no deception ... however, here too the management, with the plan fulfilled, changed the numbers retroactively (read ***) and paid only the salary ... Guys, I absolutely do not recommend this "sharashkin" office ... Well, we

Grade: ★☆☆☆☆

Pros: None

Cons: Attitude of HR staff.

Comment: Those who worked there cannot board the ship. For money from the crewing agency, please. Why is this attitude towards employees? The ladies sit for years, and then come to the watch once a month for an hour and moan like they are sick, but they like to count the money... How much for a share, how much for overload... And what should they be paid for? They don't make tea, there is no benefit during overload.

 Thank you

No, thanks. Moreover, they stopped making surimi, their earnings are not that great in the former year. People ran back to ***. But in the personnel the pathos is at the highest level

Pros: Absolutely NONE

Cons: EVERYTHING!!!!!!!

Comment: Starting from the top - they don't worry about their staff, they treat people like a herd

I am on "Mys Basargin"

We were simply roasted like meat for repairs. In iron without fans, they paid 40,000 rubles as a bonus for 3 months of abuse.

At the moment we have a breakdown, they drove us either to Nakhodka or to the Vladivostok area, the captain doesn't know anything, and as he says, he doesn't give a

Why did you have to endure it for three months? If everything is so bad. Personally, I can't get there... Without experience on large ships as a processing foreman... The guys I knew worked there and earned quite a decent salary.

You should be held accountable for the way you worked on the repairs.

Pros: None

Cons: Unstable work, overtime

Comment: I worked on land. The salary is not bad, but you can earn more in other companies - I stayed because of the stability, which turned out to be illusory. There is no stability in the company, the attitude towards people is like a resource - squeeze out more, pay less. After working out, they throw you out without looking. Overtime was from 2 to 6 hours in addition to the required 8 hours, that is, from 10 to 14 hours a day - a record compared to other unscrupulous employers.

There is nepotism, so someone sits without trying too hard and gets their positions,

Grade: ★☆☆☆☆

Pros: None

Cons: Everything except for the provision

Comment: They locked people up without fans, going ashore and iron in 30 degree heat, people are sick, but they don't care. I wonder if I could put their madam headmistress in jail for five minutes, as she likes it? It's illegal. Torture is prohibited by

law..... consequences follow from this. You don't have the money to quarantine people in normal conditions. Take action before someone dies from your torture

Borodino

Reviews 1

February 25, 2022

Grade: ★☆☆☆☆

Pros: None

Cons: Many

Comments: I worked on Borodino for 6 months, we caught 15.5 thousand tons, we received 507 for the share, I'm just in shock, after the balance sheet they didn't pay us anything at all, they screwed us over really well, the food was really bad, the chef just didn't cook tasty food, although there were products, the crew was mostly alcoholics, the captain turned a blind eye to it, everyone did what they wanted, but I'm certainly in shock that they screwed us over, I don't recommend the company!!!!!! There's nothing to do there

👍 Thank you 49 [answer](#)

Reviews 1

February 22, 2022

Pros: None

Cons: They cheat

Comment: They started cheating for money. Came back from a flight. They don't pay money. More than a month has passed. We called the accounting department in response, only vague stories. HR is a separate topic altogether. It is not clear how people are recruited. There is no point in calling HR. Everything is through crewing. Only for money. They trade vacancies

edited December 24, 2021

Grade: ★★★★★

Advantages: None

Disadvantages: A bunch

Comment: It is not clear where the Administration of the seaport of Deomid is looking. They deceived me because I understood more or less the mechanics of a person who only made documents for a sailor, they put him as a second engineer, he kept watch 12 through 12 in place with the senior engineer, they threw no sub-watches to anyone, no one was paid. Whoever stumbles upon this *** company Far Eastern fish. They have two ships in Vladivostok, SHIKOTAN and the second is called Master, run away from them as fast as you can
