Three sailors on the fishing boat named ' Eminoğulları 4 ' lost their lives due to methane gas poisoning in the hold off the coast of Sochi , Russia . The bodies of the

fishermen were brought to Ünye Port.

According to the information received, the fishing boat named 'Eminoğulları 4', which left Ünye Port in December 2023, went to the coast of Sochi, Russia, to catch anchovies for fish flour and oil factories. The 5 crew members on the Eminoğulları 4 fishing boat, which is connected to Sarıyer-Rumeli Feneri, were poisoned by methane gas while working to clean the hold of the boat where anchovies stored as bait were located.

3 Turkish fishermen lost their lives

While fishermen Caner Gürkan (50), Cengiz Demirci (30) and Emrah Bakırcı (24) lost their lives, 2 fishermen were taken to the Russian Sochi port by auxiliary boat and treated in hospital. The bodies of the deceased fishermen, Eminoğlu, 4 fishing boats and 18 crew members docked at Ünye Port today.

Following the examination of the ship by the Ünye Public Prosecutor, the bodies of the fishermen were taken to the Ünye State Hospital morgue for autopsy and identification by their families.

It was learned that Cengiz Demirci and Emrah Bakırcı, who lost their lives in the incident, will be sent to their hometown, Terme district of Samsun, after the autopsy. It was learned that Caner Gürkan, a father of 2 from Rize, will be sent to Istanbul for his funeral after the autopsy and will be buried in Istanbul after the prayer.

Two people were detained in connection with the incident, and investigations are continuing.

US launches attacks on 5 points in Yemen

US Central Command (CENTCOM) has launched five airstrikes on areas controlled by the Iran-backed Houthis in Yemen.

Publication :18.02.2024 16:45 Update :18.02.2024 18:10 Read :36

US Central Command (**CENTCOM**) has launched five airstrikes on areas controlled by the Iran-backed Houthis in Yemen.

The US continues to strike areas controlled by the Iranian-backed Houthis in Yemen. In a written statement, the US Central Command (CENTCOM) stated that between 15:00 and 20:00 yesterday Yemen time, it carried out 5 airstrikes on areas controlled by the Iranian-backed Houthis in Yemen, destroying 3 anti-ship cruise missiles, 1 unmanned underwater vehicle and 1 unmanned sea vehicle.

The statement said that the first unmanned underwater vehicle belonging to the Houthis had been detected since October 23. "CENTCOM detected anti-ship cruise missiles, unmanned underwater vehicles, and unmanned marine vessels in Houthi-controlled areas of Yemen and determined that they pose an imminent threat to U.S. Navy ships and commercial vessels in the area. These actions will preserve freedom of navigation and make international waters safer and more secure for U.S. Navy and commercial vessels."

Diving efforts continue with underwater imaging robot for missing crew

Efforts are underway to find the 5 missing crew members of the cargo ship that sank with its 6 crew members 4 miles off the Karacabey district of Bursa. Bursa Governor Mahmut Demirtaş announced that the area was scanned with a side-scan sonar device and diving operations with an underwater imaging robot were continuing at suspicious points.
