FOOD SAFETY AND QUALITY POLICY

AS KILIC HOLDING COMPANY, WE MAKE THE COMMITMENT THAT WE WILL BE THE LEADER IN AQUACULTURE ;

- BY OUR FISH PRODUCTION FROM EGGS TO HARVEST
- BY OUR PROCESSING AND PACKAGING PROCESSES
- BY QUALITY OF OUR FISHFEED AND PRODUCTION OF OUR OWN PACKAGING MATERIALS
- BEING CONSCIOUS OF OUR RESPONSIBILITIES TO THE PUBLIC HEALTH AND ENVIRONMENT
- FOLLOWING OUR ETHICAL RESPONSIBILITIES TOWARDS OUR EMPLOYEES
- BY OBEYING THE RULES & REGULATIONS AND ADOPTING A FOOD SAFETY CULTURE
- BY BEING RESPECTFUL TOWARDS OUR CUSTOMERS AND CONSUMERS
- BY USING THE RESOURCES OF OUR COUNTRY TO SUPPORT THE ECONOMY IN INTERNAL AND EXTERNAL MARKETS
- BY FOLLOWING THE NEW TECHNOLOGIES AND MAKING IMPROVEMENTS

ISO 9001:2015

With the international standard of ISO 9001 Quality Management System, it is aimed to increase the customer satisfaction through an efficient execution of the system including the constant improvement and the assurance given to the customer regarding the compliance to the current conditions.

ISO 22000:2018

The importance given to the food chain has been emphasized by including the Food Safety Management System into the general management system activities of our Company. Any dangers possible to occur in the food chain are determined thanks to the generated prerequisite programs, hazard analyses and HACCP principles. Interactive communication methods are developed and relevant control measures are taken in order to offer safe marine products to the final consumer.

BRCGS (Brand Reputation Compliance Global Standards)

Founded by British Retail Consortium, BRC is a food safety and quality standard which brings a proactive approach to the food safety. Any problems possible to occur about food safety are eliminated. Our BRC compliance is evaluated annually by internationally recognized certification bodies.

IFS (International Featured Standards)

As a standard created by the joint efforts of German, French and Italian retailers, it examines the food safety and quality topics. Thanks to the IFS inspection we receive annually, we get a chance to understand the food safety level of our company and the aspects in which we can improve ourselves.

ASC

The Aquaculture Stewardship Council (ASC) is the world's leading certification scheme for farmed seafood – known as aquaculture – and the ASC label only appears on food from farms that have been independently assessed and certified as being environmentally and socially responsible.

ASC develops and manages the strictest standards in the industry. These standards include hundreds of requirements covering the potential impacts of aquaculture – including water quality, responsible sourcing of feed, disease prevention, animal welfare, the fair treatment and pay of workers and maintaining positive relationships with neighbouring communities.

HALAL

The Halal certificate is a document that ensures the product is produced under basic human requirements and Islamic criteria. Halal standards basic purpose is all products like food any cosmetics that come in contact with human skin are produced conforming to the Islamic requirements ranging from raw materials, processes, origins.

SEDEX SMETA

Sedex defines the Supplier Ethical Data Exchange, it is a non-profit organization and introduces to drive ethical business practices. Sedex helps to maintain ethical information in a simple and effective manner. It is a secure online database which allows the registered members to share, store the information in four key areas:- Health and Safety standard, Labour standard, The environment and Business ethics. By the use of SMETA reports.

BSCI

BSCI is the European social monitoring system for ethical sourcing initiated by the Brussels-

based Foreign Trade Association (FTA). BSCI is a business-driven initiative for companies committed to improving working conditions in the global supply chain.

BSCI Code of Conduct is built on the most important International Conventions protecting workers' rights, notably the ILO Conventions and recommendations. Our company, commit to implement the Code in our supply chains.

The 11 principles of the Code of Conduct that our company commit to implement in their supply chains are:

The rights to Freedom of Association and Collective Bargaining

No Discrimination

Fair Remuneration

Decent Working Hours

Occupational Health and Safety

No Child Labour

Protection of Young Workers

No Precarious Employment

No Bonded Labour

Protection of the Environment

Ethical Business Behaviour

BAP (Best Aquaculture Practices)

certification is recognized worldwide and demonstrates that our company follows responsible aquaculture practices. By obtaining certification, our company demonstrates its commitment to environmental sustainability, social responsibility and food safety. Only environmentally and ethically sensitive fish producers can obtain this certificate.

It is proof that our company's products and production processes are reliable.

GLOBAL G.A.P.

GLOBAL G.A.P. having the certificate is one of the most important documents proving that it is safe in terms of animal welfare, biodiversity, Occupational Health and Safety, Food Safety and that it is produced through environmentally friendly practices. Our fully integrated production process and our awareness of environmental responsibility enable us to raise our success chart to the next level every year and ensure the sustainability of our brand value.
