Uyghur Forced Labor Prevention Act Statistics

The Uyghur Forced Labor Prevention Act (UFLPA) establishes a rebuttable presumption that the importation of any goods, wares, articles, and merchandise mined, produced, or manufactured wholly or in part in the Xinjiang Uyghur Autonomous Region of the People's Republic of China, or produced by certain entities, is prohibited by Section 307 of the Tariff Act of 1930 and that such goods, wares, articles, and merchandise are not entitled to entry to the United States. The presumption applies unless the Commissioner of U.S. Customs and Border Protection (CBP) determines, through clear and convincing evidence, that the goods, wares, articles, or merchandise were not produced using forced labor or that UFLPA does not apply to the goods, wares, or merchandise seeking to be entered into the United States. The statistics provided below are shipments subjected to UFLPA reviews or enforcement actions.

For more information on the terms and metrics used in this dashboard, please view the data dictionary. To access more trade-related data, please visit the CBP Data Portal.
