Subject: Re: AMP PRODUCTION

HI Sir,

I discussed the shipment plan for the rest of October with Jacob and the only loads we can move to November from the plan will be

CIST-TG 16/20 Specially Selected - 2 loads

REZP 31/40 - Bowl & Basket - 1 load

RPTO 31/40 - Bowl & Basket - ½ load

Reduce REZPNC 31/40 Natures Promise to ½ load

Reduce RTNC 41/50 Natures Promise to ½ load

Please see the sheet attached with the pending orders. I have marked the ones that can be removed/reduced in

yellow.

Best regards

Subject: AMP PRODUCTION

Joa [REDACTED]

We are having a serious issues at AMP plant related to cold storage having full of bulk products . after james visited the plant for a study he feels we should cut down purchase and use a separate team to repack . these repacked goods also will be part of MPO / shipments .

We are now into third week October . raw material purchased and produced from now on will reach destinations only towards end November / early December .

For us to evaluate the decision to slow purchase I need to know(consult jacob) from you what is pending to be processed by brand under the **emergency mode** . once I have this data I will do a calculation and come up with a plan and take actions to **start repacking** on war footing .

Jam .. meantime I am authorizing you to pick reefer containers in reducing the storage load and create space .

Gaurav .. **once again be reminded that 1 kg of bulk will not enter the store without my approval . if you and your team violate I will be forced to take legal actions .**

A WhatsApp thread tracking operations at the Amalapuram plant in October 2023 discusses production for Ahold Delhaize brand "Nature's Promise" five times

Glaze %: 11.3%

Remarks if any: NIL

[10/5/23, 11:12:35 AM] Mai****: We need to make some space inside the soaking area for this arrangement. One idle conveyor has to be taken outside and need to cut the grills and emergency door for that. After the BAP audit will plan this.

Also, I have requested for 20 grading workers 10 for each shift to the HR team.

Will start the post soaking sorting from Monday.

External ice is allowed only in case of an emergency. One ice plant near External PPC (having good infrastructure, better water source and sanitation) is approved and every single time samples are tested by lab team.

But all efforts are to avoid using the external ice.

Arrival date &Time 28/10/2023 1.25am

Door open Time: 28/10/2023 5.am

Target item is 41/50 CIST (Cut deveined).

HL 70% Yield

Got 3% soaking pickup.

Cooking loss is net 5%

Expected shell waste is 15%.

Now looking at an yield of 56.52%.

I think for pin pulled. We should get 57.50%

[1/19/24, 1:43:51 AM] Thomas Jose: But let's wait for the final results. Full weighment is not complete of peeled material.

[1/19/24, 1:47:04 AM] Thomas Jose: This is for 13/15. For 16/20, identify larger HL. But this shouldn't stop the purchase plan of 50 tons of fresh material.

[1/19/24, 1:48:14 AM] Thomas Jose: @919899175350 I also saw alot of material right now on my rounds inside the store.

[1/19/24, 2:27:05 AM] Gaurav: Copied Thomas.

And yes, this will be without disturbing the purchase plan for 50 Tons. Will reconcile the requirement with the produced quantities.

[1/19/24, 2:29:16 AM] Thomas Jose: I really feel you may have most of this inside the cold store itself. There is alot of BT block too that I saw.

Section	Implimentation Aspect	Observations
Packaging after IQF	Freezing Condition of Product	IQF freezing is good in condition. finished product temp maintance in below -18.0c temp.
	Check weights and glaze% of product	Filling weights are revised by Qc & supervisor on Regular intervals inform the weights to certain glaze % of net weight packing
	Check Counts and Uniformity of product	Qc Performs the checks for counts and uniformity and inform to Supervisor and maintain records respectively.
	Check Defects of Product	Qc Performs the checks for Deffects and inform to Supervisor and maintain records respectively.
	Check Inner Pack markings with Master Carton markings	Packing tracebilities are checked thoroughly and are matched and packed in good condition. Some damaged Crates are found in the IQF Packing Area of Alpha-1
	Pouch Sealing and packing in Master Carton	Pouch seeling and Master Carton Packing seems in conditons without out any handling errors.
	Dummy Carton Labelling with grade / traceability / package wt / glaze% of the product will be easy to identify in cold storage.	Dummy packing is performed for 53 count in bulk pack instead of packing in Nature Promise Brand of 41/50
Cold Storage	Cold Storage Temperature and Condition	Cold storage needs to be Stack Properly. Cold store temp recorder is working but not accurate. & repack material was placed in ante room which found in Damp Condition. spitoons were observed in the ante room entry corner

KEEP FROZEN • DO NOT REFREEZE

STORAGE: Keep shrimp frozen until ready to use. Upon thawing shrimp should be refrigerated immediately.
THAWING: Place desired number of shrimp in a bowl and thaw in refrigerator overnight. Rinse prior to use. To quick thaw, place shrimp in a colander under cold running water for 5 minutes, stirring carefully to ensure even thawing. Let drain in colander for about 2 minutes and chill prior to serving. Do not refreeze.

KEEP FROZEN - DO NOT REFREEZE

STORAGE: Keep shrimp frozen until ready to use. Upon thawing, shrimp should be refrigerated immediately. Thawing: Place desired number of shrimp in a bowl and thaw in refrigerator overnight. Rinse prior to use. To quick thaw, place shrimp in a colander under cold running water for 5 minutes, stirring carefully to ensure even thawing. Let drain in colander for about 2 minutes and call prior to serving. Do not refreeze.

KEEP FROZEN - DO NOT REFREEZE

THAWING INSTRUCTIONS: Place desired number of shrimp in a bowl and thaw in refrigerator overnight. Rinse prior to use. To quick thaw, place shrimp in a colander under cold running water for 5 minutes. Stir carefully to ensure even thawing. Let drain in colander for about 2 minutes. Do not refreeze.

STORAGE: Keep shrimp frozen until ready to use. Upon thawing shrimp should be refrigerated immediately.

INGREDIENTS: FARM RAISED SHRIMP (LITOPENAEUS VANNAMEI), SALT, WATER
CONTAINS: CRUSTACEAN SHELLFISH (SHRIMP).
