**To:** Joshua Farinella <Jos[REDACTED]@choicegroup.in>

There is some issue with the data. We had significantly higher numbers from June till September for PPC.

Best regards,

Gaurav

JT,

Please see below. Top line is our capacity. I have also reviewed staffing numbers from March until now. It doesn't look like we have ever had PPC staffed above 50% capacity.

[@Thomas Jose](#) I'm not sure how to handle Sri [REDACTED]. On Monday he committed to increasing his working strength to 200 by today. Yesterday he had 166. Today he is under 100. Rah [REDACTED] is working on increasing his numbers but it will take time. At least Rah [REDACTED] isn't feeding me a line of BS.

Best Regards,

**Joshua Farinella**

JT,

Will work on creating a graph today.

Josh,

Can you create a graph for me from the month of October 1st till date of the associate strength in each department? I just want to see where we went wrong, why we went wrong and why Gaurav did not raise the red flag. I don't have a mail yet from Gaurav. But when the issue hit, we were told that it was related to labour shortage.

Gaurav - very disappointing

Josh – I don't want these things happening going forward. Hence I need this chart. Looks like our priority should be getting the strength we need to produce. Unless we produce we will not make money in Amalapuram and you are there to make money for us.

JT

**Subject:** 11/30/2023 PPC Staffing

JT,

Today's PPC report is attached.

**We have increased the Qty being sent to external PPC.** Should be able to get all 54,000 lbs deheaded and peeled by end of night shift.

Also, our staffing shortage may be tied into the rice harvest season.

Best Regards,

**Joshua Farinella**
