Bapatla, I'll tell you, this is the last warning I'm giving all of you for harvested time production.

Today I see a lot of 92 hours. This is nonsense, absurd. I'll be there the last morning. You'll have to look for something else if I see harvested time production going out of control. This is the last warning I'm repeating you. And I'll close Bapatla operation. Cha****, you also can hear this. And I'll never come back to that plant again.]

[9/25/23, 5:46:10 AM] ~ Cha****: Sir,

Message noted. Will reduce H to P timings to minimum level.

[9/25/23, 6:05:42 AM] Abh****: Sir,

Message noted.

Will reduce Harvest to Production time. Have cleared holdings material and production will be online from tomorrow.

[10/20/23, 8:23:30 PM] JT: Hope you are just buying what we need to fill containers.

The irony is that I am not seeing shipments from Bapatla

[10/20/23, 8:47:11 PM] Gaurav: JT, The purchase is according to what is needed.

Out of 5 containers done this month, 1 was completely from cold store.

There was an issue with stores congestion due material from other packers, and the forklift being inop at SME. We are using a container today to move all our VID block in SME store to external store, with dedicated resources for repacking committed this will improve access and speed up the repacking from now onwards.

[10/20/23, 8:53:21 PM] Gaurav: James is also travelling to Bapatla today to support Abh**** in driving this.
