**Subject:** Re: Urgent requirements in dormitories

Dear Ma'am,

I visited the male dormitories. It is required to arrange A/C and fans, as the welfare team has urgently requested. Additionally, we need to install additional switchboards to prevent loose wires, which workers are currently arranging by themselves to charge their mobiles.

I'm forwarding to Engineering team to facilitate.

Dear Mr. Rav[REDACTED]

Kindly facilitate the same as discussed in the trail mail.

**Thanks & Regards,**

[REDACTED] Kir [REDACTED]

**HR Officer**

**Subject:** Urgent requirements in dormitories

Dear ma'am,

We urgently required installation of ceiling and wall mount fans and AC in female and male dormitories. 25 walls mounted fan are required in female 1st floor, this is because we have removed all the ceiling fans from 4 rooms and we need urgently wall mounted fans in these room.

Moreover, 8 ceiling fans and 2 AC are required in male dormitories. There is no AC nor fans in one of the rooms in boy's dormitories. These boys were sleeping without fans and AC for 4 days, and it is very suffocating for them to sleep without air.
