

BAP farms. All are local, unregistered farms,” is a complete mischaracterization and misrepresentation originating from Joshua Farinella. Any conversation like this would relate solely to Choice’s customers purchasing non-BAP certified shrimp.

Mr. K [REDACTED] confirmed that the claims you are attributing to him show the shocking dishonesty of Joshua Farinella. It seems that you and Outlaw are seemingly ready to print outrageous lies. You and Outlaw are advised to exercise the bare minimum of journalistic integrity and accept Mr. K [REDACTED]’s offer to speak with him so that he can provide you with truthful information of Choice’s high quality and safety standards.

Kit [REDACTED] similarly confirmed that your statements and allegations about Choice somehow “hiding” workers for audit purposes are entirely false and baseless. Similarly, your allegations about Choice somehow “hiding” workers for audit purposes is completely false. First, the allegations are entirely implausible for unannounced BAP audits; is Choice alleged to have made workers disappear into thin air as soon as the auditor arrives unexpectedly at its factory gates? Where were all these purported workers taken? Where is Joshua Farinella’s video of this mass removal? The allegations are entirely false and baseless. Second, Mr. Kum [REDACTED] explained that Choice simply does not have a building where it can “hide” workers during an audit; the allegation is preposterous.

You falsely claim there are “discrepancies” between Choice’s internal daily reports and external BAP audit, but this was already addressed in the Outlaw reply letter. Choice stands on its unparalleled antibiotic testing procedures (four levels, preharvest, ELISA raw material, ELISA processed material, LCMSMS) and highest of quality standards. If we can agree on your visit to the facility, you and Outlaw are welcome to bring a BAP-certified auditor (unannounced) into Choice’s facility and conduct your own BAP audit.

Joshua Farinella’s Inherently Irreconcilable Representations and Changing Story

At this point, it should be clear to you that you have been continually misled by the serial felon and manipulator, Joshua Farinella, and your blind reliance on him and the cherry-picked and manipulated data he has presented to you, constitutes reckless disregard for the truth and knowing falsity. However, to further demonstrate this, we are presenting you with Joshua Farinella’s emails with Choice executives that directly undermine and contradict the claims you make in your letter, which you received from Joshua Farinella.

Regarding SGS, as we have already explained to Outlaw, the *voluntary* daily internal reports are meant to capture every single nitpick, and addressed on a daily basis. This is to ensure the highest of standards for Choice’s facility. This also insures that Choice’s standards are well above what any external BAP audit covers and well above the mere pass or fail standard established by the external BAP audit. As such, no contradictions are present.

Moreover, Joshua Farinella has again lied to you that the SGS daily internal reports somehow demonstrate that either Choice or SGS’s external audit team is somehow falsifying
